3/7/2022	Group Definition <ul style="list-style-type: none"> • Birds of a Feather - Continue • Determine Project Leads • Start of weekly meeting 	Paul Boyes, Maarten Koning Community

COVESA Vehicle Integration Platform Timeline

Date/Target Date	What	
3/15/2022 - 4/18/2022	Weekly meetings <ul style="list-style-type: none">• Drill into topics• Define scope• Define structure• Build out wikis, document and source repositories• Propose SIG	Maarten Koning, Project Leads, Community
4/25/2022 - 4/28/2022	All Member Meeting <ul style="list-style-type: none">• Design Thinking session• Next steps - Go/No Go for SIG	Maarten Koning,

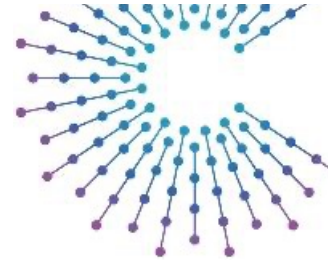

COVESA Activities

- **Team** - manages and/or provides specific services required by the Alliance to fulfill its mission; reports to the Board; Team Lead appointed by Board (e.g., Marketing Team)
- **Expert Group** – responsible for a set of work defined by their Group Charter document approved by the Board; report to either the Community Director or an associated Team Lead; Lead(s) elected from participating organizations
- **Birds-of-a-Feather** – a short-term (< 1 year) exploratory gathering of members around an idea or topic proposed by a member or by an existing COVESA activities (Team, Expert Group, etc.); facilitated by the Community Director; Lead is self-appointed (normally the individual most interested in the idea/topic)
- **Special Interest Group** – a longer-term (1 year or greater) exploratory gathering of members (and prospective members) around an idea or topic that requires tracking and/or community development (In-Vehicle Payment)
- **Project** – typically open source software hosted in a COVESA repository and for which COVESA members own maintenance responsibilities (Ramses)

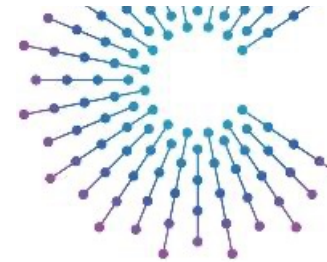

1-Page Content

- Topic (Name)
- Initiating Member(s)/Activity
 - Contact information
- Statement of Problem (1-2 paragraphs)
- Potential Outputs
- Value to COVESA Members
- Target Audience (including org names)

Charter Content

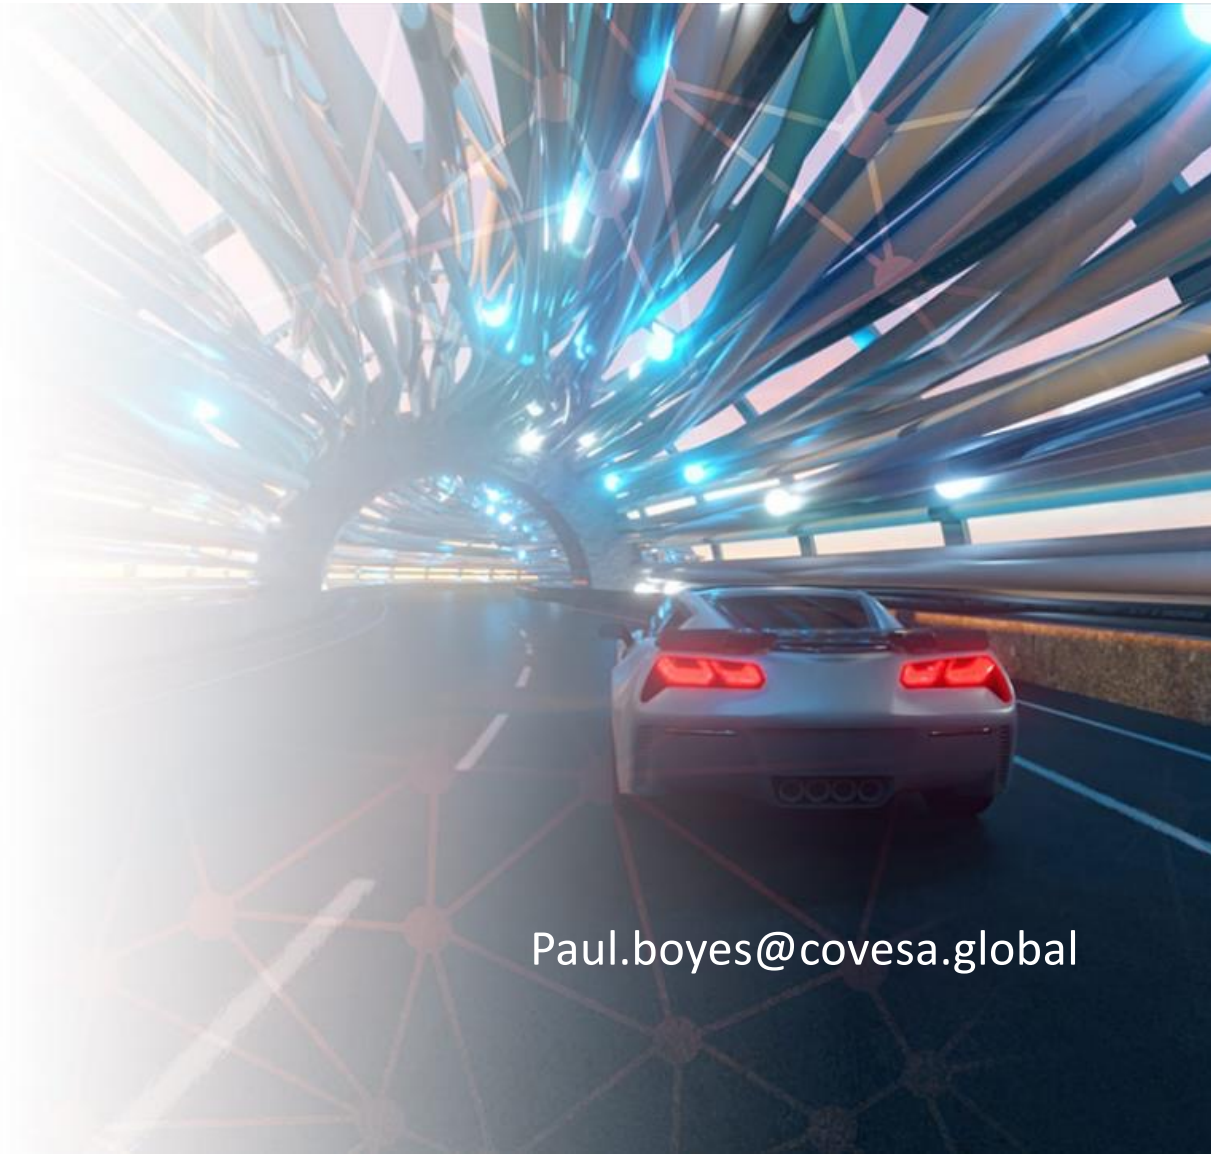

- Proposed Name of Activity
 - Type of Activity (Expert Group, Team, SIG, Project)
- Supporting Members (> 3 required)
 - Proposed leader(s)
- Refined Statement of Problem (2-3 paragraphs)
 - Relationship (if any) to other COVESA Activities
- Expected Outputs
 - Deliverables
 - Timeframe Intermediate and end milestones
- Way of Working (including tooling)
- Lifecycle and End of Life (ongoing vs. temporary)

COVESA

Accelerating the future of connected vehicles
