Industry Updates on IVP / EV

What's new in in-vehicle payments

Android Auto now supports Pay for Gas

- When it's time to fill up at the gas station, you can now put away your credit card or cash and say, "Hey Google, pay for gas" on Android Auto or from your Android phone. Select your pump number and complete contactless payment with Google Pay. This will be available at over 32,500 gas stations across the U.S. starting with Exxon and Mobil, Conoco, Phillips 66 and 76 stations.

Industry Updates on IVP / EV

What's new in in-vehicle payments

BlackBerry and CarIQ partner to deliver secure vehicle-based payments

- This vehicle-based payment solution will create new opportunities for automakers to offer a vast array of payment services and develop previously untapped revenue streams. The solution will create a “digital fingerprint” for the vehicle, allowing it to securely connect to a bank’s payment network, validate, and autonomously pay for a wide range of frequently used services, including fuel, tolls, parking, insurance, maintenance, and other “wallet” capabilities.
