#### **Siemens Knows IoT and Connected Devices**

Siemens is the #1 automation provider, delivering mission critical operation and automation technology, F with:

- 30M automation systems
- 75M contracted smart meters
- over 1M connected products in the field today

# Our solutions solve infrastructure challenges – for transportation

Traffic Management	Rolling Stock	Infrastructure	Services
~20% increase in city traffic speed	save up to 30% life cycle cost	20-30% capacity increase with train automation	up to 99% availability of fleet

# Our solutions solve infrastructure challenges – for power and grids

			SIESTORAGE
Power Generation	Power Distribution & Transmission	Digital Grid	Storage
up to 90% efficiency	HVDC can double energy transmission capacity	up to 30% lower grid losses, higher resilience	Balancing fluctuating renewable power generation

# Our solutions solve infrastructure challenges – for buildings

<b>Building Automation</b>	Energy Efficiency	Safety & Security	Energy Management		
3-5 years payback	20-30% less energy consumption	Protection of human and business activities	Energy cost savings, less CO <sub>2</sub> emissions		

### Digitalization – Our holistic approach to meet the needs of our customers

SIEMENS

Ingenuity for life

# Siemens-Expo 2020 Premier Partnership for Intelligent Infrastructure and Operations enabled by MindSphere

OFFICIAL PREMIER PARTNER

As Expo 2020 Premier Partner, Siemens will be providing a wide range of innovative solutions, technologies and products

**SIEMENS** 

Ingenuity for life

- E. g. our open, cloud-based IoT operating system, MindSphere, for optimization of energy management and building management on Expo-site
- At the Expo 2020, we will show how MindSphere can also create major customer benefits for infrastructure

# MindSphere – The cloud-based, open IoT operating system

#### **MindApps**

Powerful industry applications and digital services for asset transparency and analytical insights. Partners and customers can create MindSphere applications

#### **MindSphere**

Open Platform as a Service (PaaS) for scalable, global IoT connectivity and application development with native cloud accessibility

#### **MindConnect**

Connecting Products, Plants, Systems, Machines, Enterprise applications and Legacy databases with secure plug and play connection of Siemens and third-party products and equipment

### MindApps are powerful industry applications addressing customer problems and creating value

#### MindApps – Examples

#### **Digital Exchange**

About 30 Apps are promoted in the Digital Exchange and more than 100 are in development by Siemens, Partners or Customers

# Digital Exchange, the MindSphere Marketplace / App Store, is online already and will be extended over time

#### **MindSphere 3.0 – Roles match offerings**

### MindSphere Offerings Designed to grow with your business

MindAccess	MindAccess IoT Value Plan	
MindAccess Developer Plan Develop applications on a test system	MindAccess Operator Plan Operate applications on a productive system and offer via MindSphere Store	Use MindSphere applications based on ingested data – without development experience
<ul> <li>Cloud Foundry developer space</li> <li>Developer test tenant</li> <li>Basic APIs, including analytics</li> <li>Test asset and user management</li> <li>Developer data storage</li> <li>Developer cockpit</li> </ul>	<ul> <li>Cloud Foundry productive space</li> <li>Productive tenant</li> <li>Basic APIs, including analytics</li> <li>Operator cockpit</li> <li>Access to MindSphere Store</li> </ul>	<ul> <li>Data ingest &amp; storage</li> <li>Productive tenant</li> <li>Asset management</li> <li>User management</li> <li>Report on asset data</li> <li>Connect to almost every asset</li> <li>Access to MindSphere Store</li> </ul>

#### MindSphere Partner Program What can partners do?

#### **Consulting / Strategy partners**

- Provide digital transformation services based on MindSphere
- Develop vertical apps

#### Application Developer / ISV

- Develop vertical apps
- Sells apps based on MindSphere

#### **7**2

#### System Integrator

- Connect other enterprise systems on the cloud (ERP, CMMS, etc.)
- Provide connectivity & implementation services

#### SIEMENS Ingenuity for life

#### **Technology Partners**

Enhance capabilities as well as adoption of MindSphere platform utilizing analytics, AI & Big Data

#### **Hybrid OT Partners**

 Partners from automation, instrumentation background who will develop IoT applications and provide services

**MindSphere** 

#### **Connectivity Partners**

- Develop connectivity into products
- Sell connectivity products

#### **MindServices**

# Enable customers and partners to quickly **realize business value** by **easing and accelerating** their **MindSphere journey** through quality **training and services**.

MindSphere Academy

Get trained or certified to start building digital solutions and cloud-native applications

#### **MindSphere Professional Services**

Benefit from the competence and experience of our experts to generate your MindSphere IoT solution

#### Thank you!
