CUSTOMER CONFIGURED SERVICES

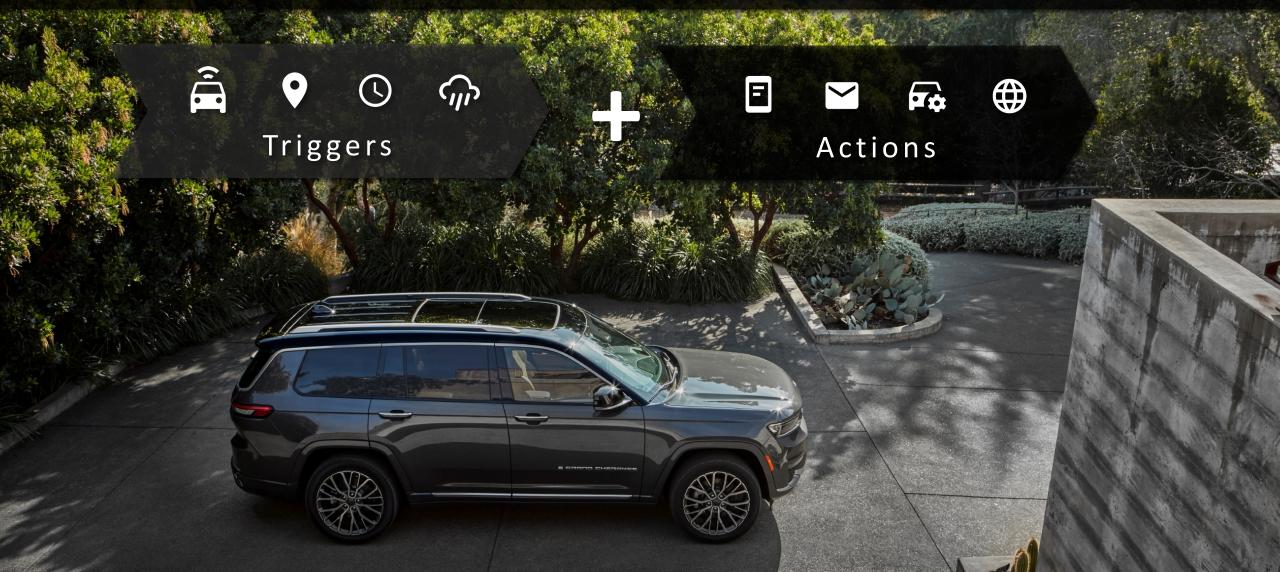

Breakthrough technology that enhances vehicle safety globally is a key element of the Stellantis Dare Forward 2030 strategic plan w the aim to become number one in customer satisfaction for products and service

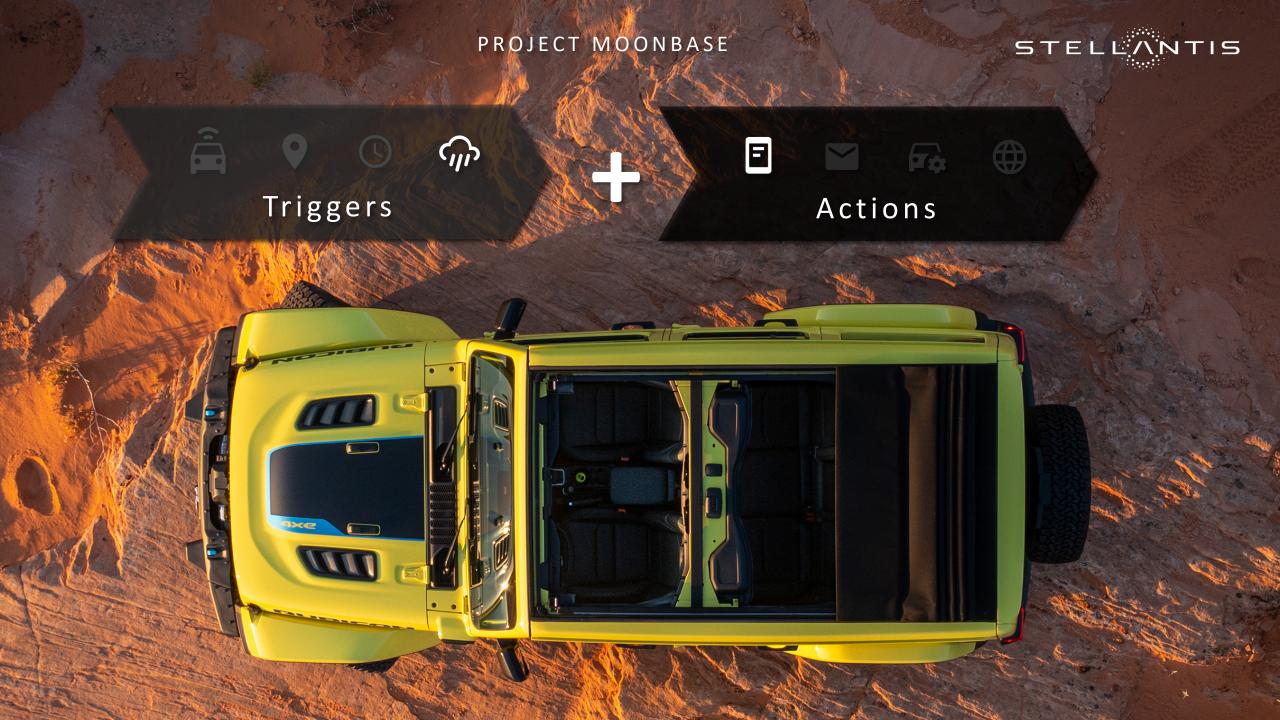

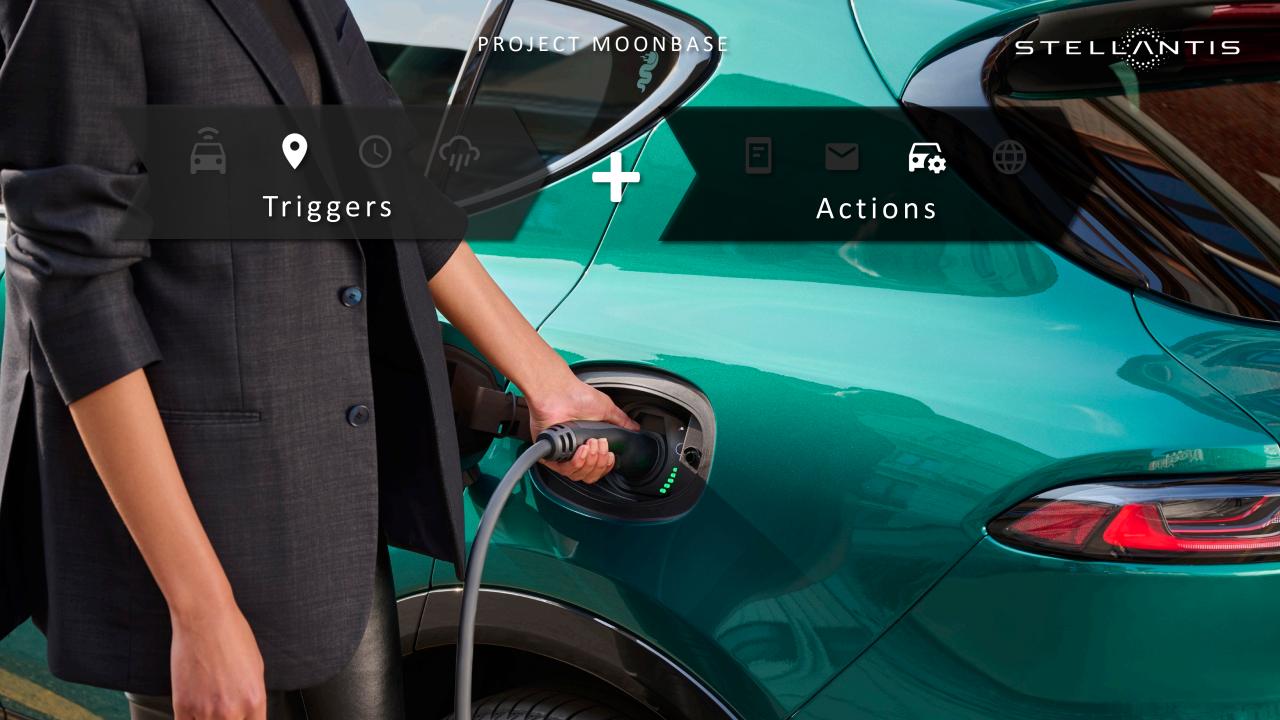

- Collision or Airbag sensor
- •Rollover, accident, etc.
- Automated Driving System "takeover"

- •Smart screen control
- Button near Hazard lights

platform that allows Stellantis to bring an unparalleled level of personalization to the customer experience by seamlessly weaving of the customer experience and customer experience in the customer experience by seamlessly we are considered as a customer experience and customer experience are customer experience.

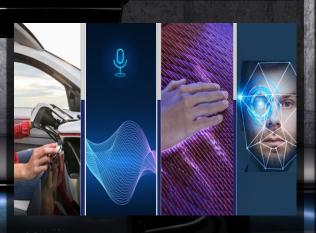

Cloud First

Empathetic UX

Multi-modal

Closed loop feedback

Intelligence in Cloud

Smart Cockpit is designed with the foundational concept of improving experience everyday and not waiting for FOTA.

UI visualizing Car's thinking

Visualization will engage users into the car's thinking and decision making process based on several physical and synthetic sensors.

Engage all Senses

The user experience will be beyond touch and voice. All inputs and outputs will be leveraged to provide a multisensory engagement with user.

Continuous evolution

Smart Cockpit learns to improve its logic by tracking customer feedback and reaction to the recommendations.
