

MigrationToCovesa Home

Page hierarchies now stored under this **MigrationToCovesa** space:

(auto-generated list of children)

- [Android Automotive SIG home](#)
- [Automotive Cybersecurity Team Home](#)
- [COVESA In-Vehicle Payment \(SIG\)](#)
- [Hypervisor Project](#)
- [Return-of-experience presentation format for All Member Meeting](#)

Action Plan

1) These are ready to be copied to COVESA Wiki: 

- [MigrationToCovesa Home](#) (This one)
- [community](#) Migrate (copy) as its own space, *better this way because it is a bit special*.
- [GENIVI Board](#) Migrate (copy) as its own space, *better this way because it is a bit special*. *Make sure access limits are retained*.
- [Sysadmin](#) (GENIVI IT) Space Migrate (copy) as its own space (or if it's easier for you [Nicholas Contino](#) we could move it under [MigrationToCovesa](#), then copy, then move it to new space)

2) [GENIVI Blog](#)  This is the old blog. No need to migrate this!

3) [GENIVI](#) =  Leave this in place at genivi.org for further refinement. (Will be copied in a later phase 2)

For information about the complete list of other spaces, what is included and what will be left behind - see [This full overview](#)
