- Fulup Ar Foll
- Dan Milea
- Unknown User (tom.spreckley)
- Brandy Goolsby
- Paul Boyes
- Gunnar Andersson

Summary

Walked through use case and actors provide by Unknown User (m5p3nc3r) in the following presentation.

Key Discussion Points

- Use cases come from the Tier1 and OEMs
- Collect a pipeline use cases and actors from community members look for commonality
- DDS was mentioned as having some piece/parts defined.
- Monitor/observe the outside of a process or task
- Use of VSS tree for data

Next Steps

- Continue to collect use cases from communtiy.
- Have member lead meetings, where members present a related topic or project

Action Items

- Everyone - familiarize yourself with slides 8 - 11 and come prepared to discuss
