

Electric Vehicle Charging Expert Group

Overview

The Electric Vehicle (EV) Charging Expert Group, approved by COVESA Board on 17 August 2022, is a single entity within COVESA where common and novel approaches around EV charging are discussed, documented, and proven including but not limited to:

- Delivering great EV experiences
- Optimization of resources
- Exploring new business models
- EV ecosystem
- Alignment with standards

The group will be driven by and coalesce around the EV Charging Event Data Aggregation Project to start.
