

# 16th GENIVI AMM - May 2017

## GENIVI All Member Meeting & Open Community Days

May 9-11, 2017 / Birmingham, UK

### Advancing Connected Vehicles in a Connected World

Registration is now open!

Korean Version [HERE](#)

On May 9-11, the **GENIVI** Alliance and its global development community will meet to explore the alliance's most recent technology advancements in open source in-vehicle infotainment (IVI) and connected car software.

The spring event brings the IVI and Connected Car community together with both business-level and technical presentations that members and non-members can both enjoy. The AMM member only sessions will begin at 1 p.m. on May 9th and the day will end with a networking reception.

The GENIVI Open Community Days will begin the morning of the 10th and will include the GENIVI Member Showcase event that evening. Technical breakouts will run in parallel on the 10th and also take up the full day of the 11th. Members are encouraged to invite nonmembers to the Open Community Days. A small fee will apply for nonmembers.

### GENIVI All Member Meeting

**GENIVI** members will exchange updates on progress made since the last event, discuss priorities and plans for the coming months, and most importantly, meet face-to-face as a globally distributed community.

### Open Community Days

Non-member attendees will join the event for a relevant and informative two-day program that gives the audience practical insights into the current status and future direction of connected car technologies. This program will explore how vehicles need to adapt to a highly connected world consisting of smart cities with smart and flexible transportation options.

Wednesday closes with our demonstration showcase and reception where **GENIVI** member companies will show their latest advancements using **GENIVI** technologies.

**Non-member cost:** 2 Days - 250GBP or 1 Day - 150GBP
